MAKE YOUR EVENT "REFINED"

WELCOME TO THE REFINED COSTUME COLLECTION

"Give me a box of glitters, beautiful fabrics and a sketchbook, and I'm happy!"

A costume is often where a concept comes to life. It creates a mood, tells a story and helps transform a performance into something memorable. Some of my favourite moments within REFINED have started with a simple sketch on paper that eventually became a full costume collection on stage" - L

At REFINED, that passion has grown into a dedicated costume department where every design is developed and produced in Dubai by our creative team. Together, we bring concepts to life through sketching, fabric sourcing, fittings and craftsmanship, creating costumes that are designed not only to look beautiful, but also to move, perform and leave a great impression.

Our collection has a wide range of styles, from bohemian and festival inspired designs to glamorous cabaret looks, luxury nightlife concepts and statement showpieces.

The costumes featured in this lookbook are available for rental and purchase. We also create fully custom made collections tailored to a specific venue, event or production. Whether inspired by an existing design or developed from a completely blank page, we love collaborating with clients to create something unique.

We hope you enjoy exploring the collection.
